Cloud Lark CMS - Demo Checklist

Placeholder download asset for the open-source demo site

This one-page PDF is generated for the demo seed only. It exists so the Downloads collection and the fileDownload block have a real file to serve.

- Replace it in /admin -> Downloads before a client walkthrough.
- Contains no personal, customer, payment or contact data.
- Attach it to a product later to exercise the delivery-file field.

File: data/demo-assets/demo-checklist.pdf

CC0 1.0 - generated placeholder, not a real deliverable.
