Cloud Lark CMS - Demo Style Guide

Placeholder download asset for the open-source demo site

A second tiny PDF, used to prove that several download assets can sit side by side in one collection without running into file-name clashes.

- Primary colour #1F7A5A, paper #F7F3EA, ink #0F231C.
- One sans-serif family, generous line height, no decorative noise.
- Swap in a real style guide PDF when the demo is handed over.
